Peanut sprout cultivation business(1)

What is needed to live a human lifespan of 100 or 120 years?
Aging look? Deteriorated function? Various diseases? I hate all that!
Is there a way to enjoy life while remaining young and healthy?

These days, there is a trend to find answers to extending life.
Some say, "Aging is a disease," and many studies have revealed that
"resveratrol" is the best among various antioxidant and anti-aging
substances.

Peanuts contain 0.01 to 0.09 mg per 100 g, and peanut sprouts contain 0.13 to 0.25 mg per 100 g. Therefore, if you germinate these peanuts, the amount of resveratrol increases by about 10 times, which may be the answer to our antioxidant and anti-aging needs.
We will replenish bioenergy and economic energy through this peanut sprout cultivation project.

Generate new avatar code

- ① On the last day of each month in Singapore Standard Time, the month deadline for generating a new avatar code is in progress.
- ② The avatar code is also a real code of 100,000 p.
- ③ The allowance for the generated avatar code is paid in the same way as the main code.
- ④ Since the avatar code's recommendation right is in the main code, matching bonuses are paid to the main code.

Code maintained

① Singapore Standard Time on the 1st of every month
At 0 o'clock, the code is maintained.

② All codes under the user are processed sequentially.

③ If you keep the code for 20 levels under your own, you can receive \$8 million per month as an allowance.

RP Deposit

RP (Registration Point):
On the last day of each month, RP is required to generate new avatar codes and maintain existing codes. Depending on the registration of the sub-code, 10% (i.e. 0.5\$) is accumulated for every 5\$ increase in sponsorship allowance.

RP Deposit

When the accumulated RP is insufficient

- 1. Purchasing RP: Insufficient RP through sponsor Purchase and replenish.**
- 2. Convert BP to RP: Convert your BP (bonus points) to RP Switch.**
- 3. If you do not recognize the necessity of an avatar code generated every month, you can wait until the RP accumulated according to the registration of the lower code is accumulated as much as the points required for the code generation.**

Recommendation: When thinking about the income generated from the avatar code generated once a month, it is recommended that you increase your code by accumulating the RP required to generate the avatar code every month.

THANK YOU!
